First and foremost, I would like to say thanks to God the most gracious the most merciful for choosing me as a master candidate here in Prince of Songkla University, Pattani Campus. Secondly, I would like to express my sincere gratitude to my advisor Asst. Prof. Dr. Rhysa McNeil and Dr. Mayuening Eso as my co-advisor for their guidance, support, and engagement throughout the process of this thesis. I am also grateful to Emeritus Professor Don McNeil for his helpful advice and valuable suggestions. I am thankful to Assoc. Prof. Dr. Apiradee Lim and Assoc. Prof. Dr. Halimah Binti Awang for their valuable comments and suggestions.

I also gratefully acknowledge the Deep South Coordination Center (DSCC) for providing useful data. I am also particularly thankful to the Centre of Excellence in Mathematics, the Commission on Higher Education, Thailand. I also appreciatively thank to the Faculty of Science and Technology, and the Graduate School, Prince of Songkla University for funding the scholarship.

I would like to extend my thanks to all lecturers in the Department of Mathematics and Computer Science, my colleges especially, Ms. Hiwot Dereje Tulu for helping and sharing my knowledge during my study period.

Finally, I wish to thank my respected parents, my beloved wife Nurhuda Masamae, and all of my three children, Abdulmartin Masamae, Abdulmuhsin Masamae, and Mashael Masamae for their unconditional love, motivation, encouragement, faithful prayers and constant support throughout my study period.
